ICE TASK 2

The image shows a screenshot of the Kotlin IDE. At the top left, the Kotlin logo is displayed. Below it, the version '2.1.10' and the target 'JVM' are shown with dropdown arrows. To the right of these is a text box labeled 'Program arguments'. The main editor area contains the following Kotlin code:

```
fun main (){
    println ("Hello World")
}
```

At the bottom of the IDE, the output console shows the result of the program execution: 'Hello World'.
